

We are writing to support Satellite Radio and it's broadcast of local traffic and weather for some of the major cities in the country. We travel the country in our motorhome through larger cities we are totally unfamiliar with and our XM radio keeps us in touch and gives us information we would have a difficult time finding. Just being visitors or traveling through we would not know where to find such information on the "open air".  
Please reject the NAB's petition 04-160..

Respectfully,

Vernon and Marianne Oepping
